

I feel the FCC should not implement any proposal the would reduce Indiana's Telephone Privacy law Protections. By having the no call law in place it has made life around the house great. We would get 18 to 20 calls a week and most of the time no one would be on the line if you answered after tow or three rings. It got to the point my wife thought someone was making calls to the house and hanging up. She wanted our phone line traced to stop these calls. After I signed up for the no call list we do not receive any calls AT ALL. THIS IS GREAT!! Please do not lesson the no call law. It has been great for us.
